

## technical datasheet

## **General description**

Acrylic based clear hot melt adhesive that gives exceptionally good adhesion to many difficult to bond materials.

Bonds to Metals, Concrete, Ceramics, Glass, Wood, Leather, Fabrics, Rubber and Melamine. Good bonds can also be achieved on many plastics such as PVC, Polycarbonate, ABS, Polyester, Polystyrene and Acrylics. But not suitable for PP and PE

Tecbond 248 has been carefully formulated to give an excellent delivery rate through glue guns such as the TEC equipment. This is important as a good tool output enables sufficient adhesive to be applied and bonds made very quickly maximising bond strength.

## **Technical characteristics**

Adhesive type: Synthetic polymer based hotmelt

Colour: Clear Molten tack: High

Storage Store in a clean dry place at temperatures between 5°C and 30°C with boxes closed. Do not expose to direct sunlight or

localised heat sources such as radiators or hot pipes.

Removal of glue Assembled components can be separated by heating assembly to a temperature slightly above the heat resistance figure.

EVA & Polypropylene: Residues of EVA and polypropylene based hotmelts can be removed from components with white spirit.

Polyamide: Residues of polyamide based hotmelt can be removed from components with acetone.

PUR: Prior to cross linking adhesive can be removed with white spirit or ketone. Once fully cross linked the adhesive cannot be easily

removed.

Please note The information contained on this data sheet is for guidance only. It is the result of careful laboratory evaluations by trained and

qualified staff using British Standard or similar test methods. However, no warranty is expressed or implied regarding the accuracy of the data or the suitability of the adhesive for any specific purpose. In every case, we strongly recommend that the user shall make their own test to determine to their own satisfaction the suitability of the adhesive for their particular purpose. Neither the seller nor manufacturer shall be liable for any injury, loss, damage, direct or consequential arising out of the use or inability to use the product. Further information is always available to help solve your adhesive problems. Should you require

any further information on our adhesives please contact your nearest distributor.
