

PELTOR™
Protection & Communication

Small. Simple. Rugged.

FL7000 Series Push-to-Talk Adapter

The 3M™ PELTOR™ FL7000 PTT has been designed for dual communications utilizing multi-channel or two single-channel radios. The FL7000 offers a small footprint, non-powered design for durability and reliability in harsh environments.

Headset Interface

Choose between a 5-pin, or a 10-pin connector. The 10-pin connector enables power management from radio or similar system.

End User Device (EUD) Interface

Select adapter models connect to an EUD for data communication via separate EUD cable.

Multi-Comm Operation

Allow for communication on two single channels, or one multi-channel radio.

Attachment Options

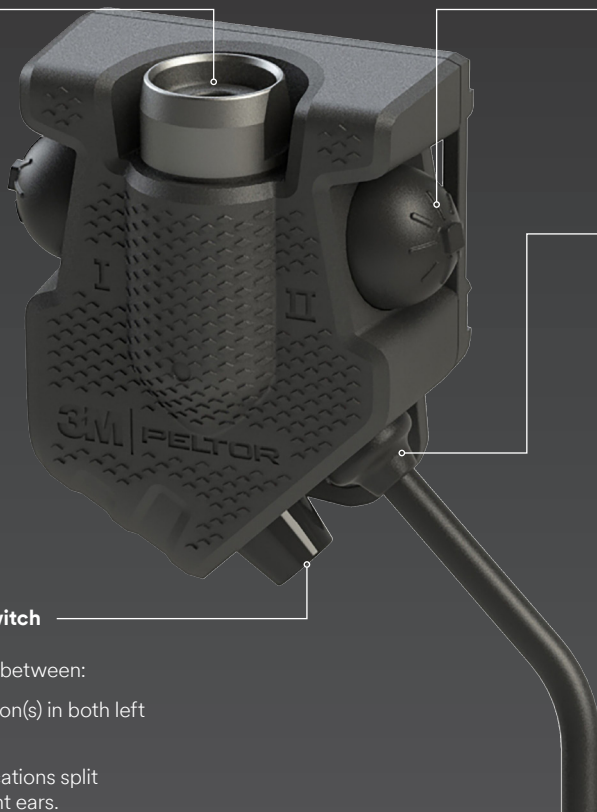

PTT can be secured using a rotatable clip, fixed clip or zip tie.

Audio Management Switch (on select models)

Enables users to choose between:

Mix: Radio communication(s) in both left and right ear.

Single: Radio communications split between the left and right ears.
