

Better cleaning is in our nature

Day in, day out, our floor cleaning range does every job right first time

Floor Cleaning Solutions

Natural evolution for even bri

As a market leader in floor care, 3M is always striving to set new standards. This evolves from ongoing investment in new innovations and technologies, making 3M the natural choice for outstanding value and consistently high performance.

Back in the 1950's 3M combined three of its strongest technologies - abrasives, adhesives and non-woven fibres - and Scotch-Brite™ products were born. Today, 3M continues to develop its floor care range with the introduction of Scotch-Brite™ Plus and Scotch-Brite™ Double Action floor pads.

The 3M promise is TOTAL LOWER COSTS. The true cost of floor care is not how much you pay for the pads but what they do for you in terms of productivity gains through consistently high performance and lower operator stress.

Scotch-Brite™ Floor Pad Range

Scotch-Brite™ Plus Floor Pads

Due to their new, thicker web construction, our Scotch-Brite Plus floor pads are heavier and flexible enough to conform better to floors, reducing vibration felt by the operator and improving cleaning results. In addition, they maintain consistent performance over more square meters of floor than ever before. They are machine washable, highly clog and tear resistant and give the same powerful cleaning performance throughout their lifetime yet last even longer than many competitive pads.

Scotch-Brite™ Plus Red Pad

The most efficient pad for removing marks and buffing to a high gloss on protected floors. New improved construction cleans 10% more area and helps reduce HAV (Hand-arm vibration). Optimal use on high speed machines, 150-600 RPM.

Sizes

mm	inches
159-710	6-28

Scotch-Brite™ Plus Blue Pad

A more open and resilient pad construction to reduce clogging, which extends the time before rinsing. Ideal for heavy duty cleaning as it also removes marks efficiently. New improved construction cleans 10% more area and helps reduce HAV (Hand-arm vibration). Optimal use on high speed machines, 150-600 RPM.

mm	inches
159-710	6-28

Scotch-Brite™ Green Pad

Medium aggression wet scrubbing pad, for efficient mark removal on heavily soiled floors. For use on standard speed machines, 150-250 RPM.

mm	inches
159-710	6-28

Scotch-Brite™ Tan Pad

Polishing pad for regular dry buffing of soft finishes and some spray cleaning operations on lightly soiled floors. Recommended for use with standard speed machines, 150-250 RPM.

mm	inches
280-530	11-21

Scotch-Brite™ White Pad

Buffing pad for dry polishing of protected floors under high speed floor machines (150-600 RPM) to give a rich, deep shine.

mm	inches
159-710	6-28

ghter results

Scotch-Brite™ Brown Pad

Recommended for use in dry stripping operations on protected floors, and wet stripping operations with any conventional stripping solution. For use with standard speed machines, 150-175 RPM.

Sizes

mm	inches
159-710	6-28

Scotch-Brite™ Black Pad

Aggressive stripping pad for wet stripping of floor finishes on hard floors. For use with stripping solutions on standard speed rotary floor machines, 150-175 RPM.

mm	inches
159-710	6-28

Scotch-Brite™ Double Action Floor Pads

As a specialist floor-cleaning supplier, our customers' requirements are of the utmost importance.

Recognising that our customers' time is precious, 3M have invented a solution for saving time and space in small-medium areas. The latest creation in our specialist range, Scotch-Brite Double Action pads are a single structured pad with two different abrasive sides – 80% for the main cleaning/polishing operation and a 20% 'erasing side' to help remove stubborn marks. Switching from one pad surface to another has never been easier – no need to return to the storage area wasting time and money.

Scotch-Brite™ Double Action Red/Blue pad

Innovative new floor pad from 3M, ideal for small-medium hard floor areas and in uneven wear applications to improve productivity. Simply flip the pad for heavily soiled areas and revert to restore shine. Red side is 80% of a normal pad and blue side 20%.

Sizes

mm	inches
380, 406,	15, 16,
432, 505	17, 20

Scotch-Brite™ Double Action White/Red pad

Another pad in the Double Action family, the White/Red pad provides productivity gains in a polishing operation, especially in uneven wear applications. Clean stubborn marks away with the red side, then flip the pad and buff to a rich, deep shine. White side is 80% of a normal pad and red side 20%.

mm	inches
380, 406,	15, 16,
432, 505	17, 20

Scotch-Brite™ Specialist Range

Scotch-Brite™ Black High Productivity Pad

Stripping pad originating from a technology developed by 3M. The high productivity black pad has a super open construction that aggressively removes excessive build-up on tough and ultra high speed burnished floor finishes, quickly and effectively. Optimal use at 150-175 RPM.

Sizes

mm	inches
330, 380	13, 15
406, 432	16, 17
505	20

Scotch-Brite™ Orange & Green Pad

Specialist pad for routine wet cleaning of protected floors prior to a high speed buffing operation. Also for use in extra-high speed spray cleaning operations on protected floors. For use at machine speeds 500-1200 RPM.

mm	inches
355-505	14-20
689	27

Scotch-Brite™ Orange & White Pad

Ultra-high speed polishing pad for dry buffing of protected floors at machine speeds in the range 1200-3000 RPM. Also suitable for light spray cleaning operations.

mm	inches
406-505	16-20

Scotch-Brite™ Eraser Pad

Synthetic fibre pad for ultra high speed operation 1200-3000 RPM. Excellent for efficient black mark removal. Use on protected floors.

mm	inches
432	17
480-689	19-27

Scotch-Brite™ Brush'n'Mop

High quality synthetic fibre floor pad for routine cleaning of uneven floors, safety floors, alto and carpet spray cleaning. Use under standard or high speed floor machines 150-500 RPM.

mm	inches
380, 432	15, 17

Scotch-Brite™ Crystallisation Pads

Scotch-Brite™ Bronze Pad

Crystallisation pad designed to produce a medium shine on marble or terrazzo floors when used with 3M Crystallisation marble chemical, under standard speed rotary floor machines 150-175 RPM.

mm	inches
380, 406,	15, 16,
432, 505	17, 20

Scotch-Brite™ Silver Pad

The silver pad creates a high shine when used after the bronze pad. It is also ideal for routine maintenance. For use with standard speed rotary floor machines 150-175 RPM.

mm	inches
380, 406,	15, 16,
432, 505	17, 20

3M™ Floor Maintenance Accessory Range

3M™ Sanding Screens

Screen-like disc coated with resin and silicon carbide minerals, machine speeds 150 - 175 RPM. For refinishing and preparation of wooden floors prior to varnishing or other protection. From gentle to heavy restorative/finishing operation according to grit : 60, 100, 150.

Sizes

mm	inches
380, 406	15, 16,
432	17

Scotch-Brite™ Doodlebug Edge Cleaning System

For easy cleaning of difficult-to reach-areas such as edges, stairs, walls, areas under furniture.

mm	inches
