Safety technology

No sharp blade = extra safety

The cutting edges are not angled, but straight ground. This means: No danger for your fingers. Therefore our safety scissors all carry the name SECUPLUS = special safety

EXTRA-LARGE SAFETY SCISSORS WITH EXTRA-LONG CUTTING EDGE AND FINGER-FRIENDLY SPECIAL CUT.

Order No. 568001.00

Scissors for industry. Cutting with power.

The SECUPLUS 568 from MARTOR are industrial scissors for use in logistics and production. They are the tool of choice for cutting materials such as thicker cardboard, rubber and strapping bands. The safety scissors are extremely robust while also being impressively large with a cutting edge length of 115 mm. A special safety ground-edge and rounded tips also ensures protection from from cutting and pricking while working.

Strong connection

A must for high-quality scissors. The scissor blades are joined in the centre using a high-quality screw and nut to provide outstanding robustness.

Extra long cutting edge

No other scissors from MARTOR are as long as the SECUPLUS 568. Their 115 mm cutting edge length quickly cuts through materials. Power can be delivered through the extra-large cutting edges – ideal for tough cutting tasks.

Ergonomic handle

The blades have extra-large handles, ideal when wearing gloves, and also have a practical thumb opening. Soft grip on the inside of the handles provides comfort and non-slip operation.

Efficient, but not hazardous

Take a look at the cutting edges. Noticed anything? They are not ground at an angle, but at right angles. Therefore you cannot cut yourself, only the large range of potential materials.

Stainless steel

You will be able to use your scissors for a very long time as the metal parts are made from stainless steel. The handles have been coated in a plastic reinforced with fibreglass. Another guarantee for a long service life.

SAFETY ADVICE

Please read these instructions and keep them safe so that you can use your new MARTOR scissors safely and in the best possible way.

1. General application instructions: Please always use the product carefully for manual cutting work only and not for any purposes other than those that are intended. Please take the correct handling and the proper use of the knives into account in this regard. As an additional safety measure, we recommend the wearing of safe gloves.

2. Special application instructions to avoid the danger of injuries: Always use the safety scissors with great caution even when the specially sharpened cutting edges seem to offer protection from cut and stab injuries. Do **not** grind the scissors. Please only use the scissors for the above-mentioned materials in an appropriate fashion and always carefully. With this in mind, respect the correct handling and usage of the safety scissors. Any other usage can lead to damaging the product or even other nearby items. Through

inappropriate usage, e.g. knocks, bangs or falling from even a low height, the scissors can become damaged. In particular, the scissors must not be used in a way that can cause a crushing hazard to the hands or other limbs. Always guide the safety scissors in a straight line away from you and keep them at a constant suitable angle.

3. Storage/Nonuse of the scissors: When you are not using the scissors, keep them in a safe place. If the scissors are visibly damaged, do not use them.

4. Care advice: Protect the scissors from moisture and heat and store in a dry place. From time to time, put a drop of oil in the screw slots so that the cutting action remains smooth.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This scissor does not belong in the hands of children!
